

ALD-3 Lubricant & De-icer for Air Brake lines

Description

PROLAB's ALD-3 is the best lubricant & de-icer for air brakes line on the market. Its de-icing action works instantly and leaves a protective lubricant.

Characteristics and Benefits

ALD-3's unique formula provides a number of benefits not found in other regular products. **It may be used in all types of air applications** and will not harm any internal components.

It's use results in long lasting protection against humidity, freezing and wear of internal parts such as valves and pistons.

It also lubes all moving parts with a fine long lasting film that makes all internal components move with less resistance, giving a longer life to gaskets and O-rings in all air systems and a **greater resistance to very cold temperature (-50°C)**.

Types of Application

ALD-3's superior qualities make it suitable for industrial as well as commercial use.

Warning

Never pour ALD-3 directly in the air tanks.

Available Sizes

250 ml, 1 L, 20 L, 55 L, 205 L

Product Code

537

Characteristics	ASTM Test	Typical Values
Flash Point	D56	11,5°C
Pour Point (Base Oil)	D97	-62°C
Pour Point (Solvent)	D97	-98°C
Specific Gravity at 15°C	D4052	0,80 gr/cm ³
Viscosity at 40°C	D445	0,6 cSt
Appearance		Clear Fluid Liquid
