

## **Super-P**

### **Deep-penetrating super-strength fast-acting oil**

#### **Description**

The SUPER-P is the best performing deep-penetrating super-strength fast-acting oil on the market. Its fast-acting super-strength formula loosens even the most stubborn rusted-jammed parts.

#### **Characteristics and Benefits**

SUPER-P has a deep-penetrating fast-acting agent to loosen jammed mechanical parts. It dissolves rust, loosens jammed mechanisms and cleans rusted parts.

SUPER-P has a pleasant odor and is safe to store since it is not affected by freezing/thaw cycles.

#### **Types of Application**

SUPER-P is a must in all workshops, including industrial mechanical.

Use it on bolts, nuts, pins, bushings, axles, hinges, etc.

#### **Directions for Use**

Apply directly on pieces. Let sit for a few minutes and loosen. Wipe thoroughly with a rag and lubricate with a high quality lubricant such as Prolab's PL-100 (see PL-100 specification sheet).

Use in a careful and safe way, in accordance with the Health and Security Regulations in the workplace.

#### **Warning**

Avoid contact with eyes, skin and clothing.

Always use in a well-ventilated area.

Carefully follow directions written on the container.

#### **Available Sizes**

500 ml, 4 L, 20 L, 55 L, 205 L

## Product Code

# 541

Characteristics	ASTM Test	Typical Values
Appearance		Yellowish Liquid
Pour Point	D97	-35°C
Specific Gravity at 15°C	D4052	1,03 gr/cm <sup>3</sup>
Viscosity at 40°C	D445	23 cSt
